Profile

Senior Java backend developer with 7+ years of experience. I have experience in Spring/Spring Boot, BigData stack (Spark/Hadoop). Worked in Invest Banking (middle/back office).

Experience

B.Tech (Russian technology center of BNP Paribas CIB)

February 2020 – present

Senior Software Developer
Joint to the existed project and promote migration to the newest technologies.
Developed an internal framework for providing access to data: Spring boot based webservice application with generated model (Avro based). Implemented CI on Jenkins. Technology stack: Java 8 -> 11, Spring boot 2.3.x, Avro is for model classes, Maven, Git.

Russia Technology Center of Deutsche Bank

June 2014 – February 2020

Senior Software Developer
Started as Java Junior Developer, grew up to Senior Developer.
I was in two teams/projects:
- A default service side project on the internal framework on Spring Framework and disruptor/ring buffer.
  Technology stack: Java 7 -> 11, an internal framework (Spring Boot 1.x, Protobuf, Maven (migrated from Ant), Git (migrated from SVN).
- A data lake. It was built using Hadoop/Spark. Project was on Scala. Impala for ad hoc queries. Supported migration from Spark 1.6 to Spark 2.x. Maintained an internal framework for processing upon on Spark (long running spark submit app with incoming events to process new batches).
  Technology stack: Java 8, Scala 2.12, Maven, Git.

I was a tech tead in two teams. Supported DevOps tasks in projects: implemented CI on TeamCity and CD on UrbanCode Deploy.

Education

Specialist's degree. Department of Informatics and Control System of Bauman Moscow State Technical University (https://www.bmstu.ru/). Specialization: Software for Computers and Automation Systems.

Certificates:

Oracle Certified Associate, Java SE 8 Programmer
Architecting with Google Kubernetes Engine: Foundations
Google Cloud Fundamentals: Core Infrastructure
